NEW FIREARMS CONTROL LEGISLATION AND REGULATIONS (C-17) EFFECTIVE AUGUST 1, 1992

For a complete understanding, as well as a copy, of the revised firearms control legislation and regulations that affect your rights of acquisition, storage and use of firearms within Canada, contact your local federal government Department of Justice, Communications and Consultations, or your local Firearms Registrar or Police Service, or the office of your Chief Provincial or Territorial Firearms Officer.

Please note that as of January 1, 1993, magazine capacities for handguns and all centre-fire semi-automatic rifles and shotguns are to be reduced. As of this printing, full details are not available as to which specific firearms are affected.

Any firearms displayed in this catalog and ordered before December 31, 1991 has the option of being supplied with either the original magazine capacity (as stated herein) or a reduced magazine capacity of 10rds for handguns and 5rds for semi-auto rifles. As of January 1, 1993, restricted capacity magazines only will be sold, according to the prevailing laws and regulations.

Pistols

Founded in 1949, Heckler & Koch are leaders in high-technology weapons, and are among the finest gun designers and manufacturers in Europe. A large part of HK's splendid reputation is due to the exclusive DRLB (delayed roller-locked bolt) system - the same technology that gives their HK hunting and sporting rifles their unexcelled reliability and precision.

P9S Series Semi-Auto Pistols

Originally designed for West German Police, used also by U.S. special forces. Fast and easy; cocks with lever on left or with trigger in double-action mode; protruding pin indicates gun is ready to fire; thumb safety; polygonal profile barrel - used also in other pistols - provides increased velocity, ease of handling, and longer barrel life. Combat-style sights make target alignment fast and easy. 102mm (4") barrel. Target Models have trigger stop, with adjustable trigger and rear sight. All models come with spare magazine.

P7K3 Semi-Auto Pistol, Cal. 7.65

Its design and operation are largely identical to the P7M8 and P7M13 pistols. Has an inertia bolt without gas piston. Conversion kits are available which permit the change of calibre by simple barrel and magazine exchange. When changing to calibre .22LR, apart from the barrel and the magazine, the slide must also be exchanged. This .22 LR calibre slide is specially designed for intensive training fire of inexpensive rimfire cartridges. The barrel is provided with a linear floating chamber to increase safe functioning. Complete identical handling from left and right, therefore, suitable for both left and right handed shooters. Ideal for sport, self-defence or practice shooting.

RARE HANDGUN PARTS AND PART-GUNS

This list of gun parts and part-guns is to help you complete your weapon as well as for you to stock spare parts that may be difficult to find. All of the stated handguns and part-guns have some operational defects or are missing parts such as grips, screws, firing pins, etc... and are sold without magazine.

If you can't find the particular make or model of handgun you are looking for in the adjacent listing, please call us. We have a much larger variety of incomplete handguns in inventory to meet your handgun parts requirements.
